Sunday May 17, 2009 1pm-3pm
WHERE | 2nd floor Learning Commons, Kennedy Library

MORE | Learn to make a personal journal using a recycled book. After choosing from a stack of 'discarded' library books you will learn how to remove the pages and replace them with a variety of blank papers. Papers will be stitched into the spine creating a new book.

Students will use traditional book making tools in nontraditional ways. If you have papers you love and want to include, or recycled paper you would like to share, please bring them. A cutting mat, knife, needle punch, scissors, and bone folder would come in handy, but if you don't have these things we will provide everything you need.
