

TAIWAN

PLUGGING INTO THE WORLD

WHEN

November 18th – December 2nd, 2010

KENNEDY LIBRARY

Café Gallery, 2nd Floor during regular hours

SPONSORED BY

The Asian Studies Minor Program, Cal Poly and Taipei Economic and Cultural Office, Los Angeles

The collection of photos attests to Taiwan's transformation from an agrarian past into a high-technology nation at present. Through images, the exhibition introduces digital life in Taiwan and their goal of becoming a "knowledge-based economy." By viewing these photos, spectators may gain a better understanding of Taiwan, one of Asia's most advanced e-economies.
